🏠 No. 6, Yongke 5th Rd., Yongkang Dist.,
Tainan City 710, Taiwan (R.O.C.)

Pursuing the concept of "Innovation in Comfort", Macauto has developed a Robotic Golf Caddy Cart, GP200, to maximize your golfing experience under Eco Star. With it, you don't have to carry a heavy golf bag around on your own anymore. GP200 is a great companion to manage your golf gear. It allows you to walk hands free on a golf course! It can prevent fatigue and potential muscle injury. Let GP200 reduce your burden and redirect your focus for better game performance!

Product Features

- Simple and Swift Unfolding**
 The pedal design helps you unfold GP200 quickly. Two steps release the joints. Swift and simple!
- Easy to Charge with a Removable Battery**
 No complex wires and procedures, simply take out the battery, charge, and then put it back. It is all done!
- Ultrasonic Technology**
 Via the accurate positioning system, you will not lose the cart.
- Complete Remote Functionality**
 Three mode options — Follow / Remote / Manual — can meet different requirements on a golf course.
- Small Radius of Gyration**
 Dual-drive wheels keep GP200 more precise and smooth when it turns.

Mode

- Follow**
 The cart can follow you automatically. When you go, it goes. When you stop, it stops.
- Remote**
 Control the cart easily by the compact remote. Just press the buttons, and it will move as you wish.
- Manual**
 As a push cart helping you reduce the load, you can also control it via the panel.

Folding for Storage
