Magnetic HD-M

4 Powerful Magnets — Keep Your Device Secure

4 strong rare earth magnets hold your device steadily in position even on rugged roads.

No Signal Interference — Closed Magnetic Field

The closed magnetic field does not interfere with your device signal and phone navigation. Safe to use!

Adhesive Metal Plate — Solid and Easy for Installation and Use

Simply place the metal plate directly to your device or between your case and mobile phone/tablet. It is all done!

- Note: Not suitable for a thick protective case

Easy Solutions to Your Mobile Life

HD Mobile Phone / Tablet Holder

Patented

Shared Handle

Universal Design

360° Rotation — Swivel Most Easily
No angle limit. The swivel makes your adjustment smooth and easy.

Release Your Wrist Pressure
The handle reduces the wrist pressure. You do not need to stretch your hands or fingers overly. Better yet, you can set your hands free by putting it wherever you like.

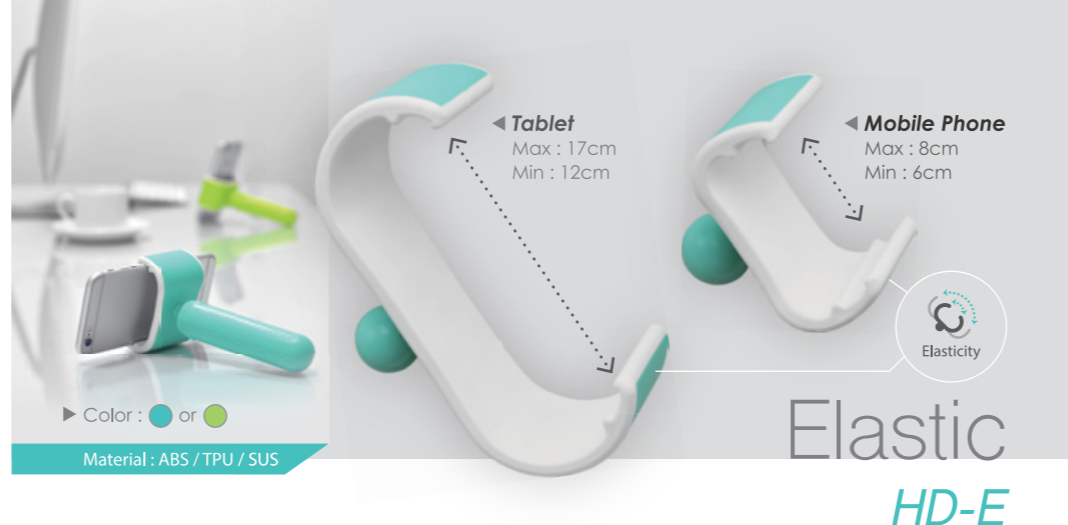

Anytime, Anywhere
It is pretty easy to use whenever or wherever. No matter on the chair, sofa, table, or even bed, it is a brilliant helper for you to enjoy your mobile device.

More Stable than Ever
Compared to a finger ring stand, sticker holder, and heavy grip bar, it provides excellent support. Just experience it yourself. The stability would definitely impress you.

Avoid Neck Injury
Just set it in a proper position and easily be away from the poor posture of the neck.

Anti-Slip Rubber Makes the Stability
Surrounded by anti-slip rubbers, it advances the safety for your mobile device.

Easy to Adjust Dimensions with One Button
Do not worry about your device dimensions. With one button, you could adjust the size easily.

Falling Prevention — One-Key Lock
Press two sides of the holder to fit your device. It locks it in place simply with one click and prevents it from dropping easily.
