INDEPENDENT AUDITORS' REPORT TRANSLATED FROM CHINESE

To the Board of Directors and Shareholders of Macauto Industrial Co., Ltd.:

Opinion

We have audited the accompanying consolidated balance sheets of Macauto Industrial Co., Ltd. and subsidiaries (the “Group”) as of December 31, 2024 and 2023, and the related consolidated statements of comprehensive income, of changes in equity and of cash flows for the years then ended, and notes to the consolidated financial statements, including a summary of material accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as of December 31, 2024 and 2023, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations that came into effect as endorsed by the Financial Supervisory Commission.

Basis for opinion

We conducted our audits in accordance with the Regulations Governing Financial Statement Audit and Attestation Engagements of Certified Public Accountants and Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the Auditors' responsibilities for the audit of the consolidated financial statements section of our report. We are independent of the Group in accordance with the Norm of Professional Ethics for Certified Public Accountant of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Group's 2024 consolidated financial statements. These matters have been addressed in the context of our audit of the consolidated financial statements as a whole and, in forming our opinion thereon, we do not provide a separate opinion on these matters.

Key audit matters for the Group's 2024 consolidated financial statements are stated as follows:

Valuation of inventories

Description

Refer to Note 4(9) for the accounting policy on inventory valuation, Note 5(2) for uncertainty in accounting estimates and assumptions in relation to inventory valuation, and Note 6(4) for details of inventory and allowance for inventory market price decline.

The Group's main business is the manufacture and sale of various Automobile Sun Shade and other related products. These inventories will be affected by factors such as market demand and styles of different vehicle types. Therefore, there is a certain risk of inventory impairment. The Group measures its inventories at the lower of cost and net realizable value. For inventory aged over a certain period, individual identification of net realizable value is adopted, and related losses are recognized.

The allowance for valuation loss mainly arises from identifying inventory aged over a certain period and its valuation based on net realizable value. The procedure of such identification involves subjective judgment, which might result in a high degree of estimation uncertainty. Considering that the Group's inventory and the allowance for inventory valuation losses are material to the financial statements, we considered the valuation of inventories a key audit matter.

How our audit addressed the matter

Our key audit procedures performed in respect of the above key audit matter included the following:

1. Assessed the reasonableness of policies and procedures in relation to the provision of allowance for inventory valuation losses based on the accounting principles and our understanding of the nature of the business and the industry.
2. Obtained an understanding of the Company's warehousing control procedures. Reviewed annual physical inventory count plan and participated in the annual inventory count to assess the classification of obsolete inventory and effectiveness of internal control over obsolete inventory.
3. Selected samples from inventory items by each sequence number to verify its net realizable value and evaluated the reasonableness of allowance for inventory valuation loss.
4. Sampled the calculation of net realizable value of individual inventories and compared with the recorded amounts.

Existence of sales revenue from auto sun shades for export

Description

Refer to Note 4(26) for the accounting policy on revenue recognition and Note 6(19) for details of revenue.

The Group's main source of revenue is the manufacturing and sales of related products such as auto sun shades, and is primarily focused on exports. Due to the diverse and dispersed nature of its customer base, which includes global Tier 1 automotive suppliers and international car manufacturers, and the large volume of transactions involved in its sales revenue, verifying the authenticity of these transactions also requires a considerable amount of time. Thus, we considered the existence of sales revenue from auto sun shades for export as one of the key audit matters for this year's audit.

How our audit addressed the matter

Our key audit procedures performed in respect of the above key audit matter included the following:

1. Evaluated the internal control system designed and implemented by the management for customer credit checks, reviewed the documents related to transaction partners and credit assessments, and ensured that they have been properly approved.
2. Verified the basic information of significant sales partners and analyzed the sales amounts and trends of two periods to assess the reasonableness of their sales amounts and nature.
3. Performed a series verification sample test for the sales revenue transactions of the year, including vouching customers' orders, shipping orders, export declaration documents, customer receipt records and sales invoices or subsequent receipts, to confirm whether the sales revenue transactions really occurred.

Other matter – Parent company only financial reports

We have audited and expressed an unmodified opinion on the parent company only financial statements of Macauto Industrial Co., Ltd. as at and for the years ended December 31, 2024 and 2023.

Responsibilities of management and those charged with governance for the consolidated financial statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers, and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations that came into effect as endorsed by the Financial Supervisory Commission, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including audit committee, are responsible for overseeing the Group's financial reporting process.

Auditors' responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

MACAUTO INDUSTRIAL CO., LTD. AND SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
YEARS ENDED DECEMBER 31, 2024 AND 2023
 (Expressed in thousands of New Taiwan dollars, except as otherwise indicated)

1. HISTORY AND ORGANIZATION

(1) Macauto Industrial Co., Ltd. (“the Company”) was established on July 25, 1983, in accordance with the provisions of the Company Act of the Republic of China. The main business items of the Company and its subsidiaries (“the Group”) are the manufacture and processing of various Automobile Sun Shade, auto parts, lawn mowers, etc., as well as the manufacture of molds and hand tools.

(2) The common shares of the Company have been listed on the Taipei Exchange since December 2003.

2. THE DATE OF AUTHORIZATION FOR ISSUANCE OF THE CONSOLIDATED FINANCIAL STATEMENTS AND PROCEDURES FOR AUTHORIZATION

These consolidated financial statements were authorized for issuance by the Board of Directors on March 7, 2025.

3. APPLICATION OF NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS

(1) Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards (“IFRS®”) Accounting Standards that came into effect as endorsed by the Financial Supervisory Commission (“FSC”)

New standards, interpretations and amendments endorsed by the FSC and became effective from 2024 are as follows:

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board (“IASB”)
Amendments to IFRS 16, ‘Lease liability in a sale and leaseback’	January 1, 2024
Amendments to IAS 1, ‘Classification of liabilities as current or non-current’	January 1, 2024
Amendments to IAS 1, ‘Non-current liabilities with covenants’	January 1, 2024
Amendments to IAS 7 and IFRS 7, ‘Supplier finance arrangements’	January 1, 2024

The above standards and interpretations have no significant impact to the Group’s financial condition and financial performance based on the Group’s assessment.

(2) Effect of new issuances of or amendments to IFRS Accounting Standards as endorsed by the FSC but not yet adopted by the Group

New standards, interpretations and amendments endorsed by the FSC effective from 2025 are as follows:

New Standards, Interpretations and Amendments	Effective date by IASB
Amendments to IFRS 21, ‘Lack of Exchangeability’	January 1, 2025

The above standards and interpretations have no significant impact to the Group’s financial condition and financial performance based on the Group’s assessment.

(3) IFRS Accounting Standards issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRS Accounting Standards as endorsed by the FSC are as follows:

New Standards, Interpretations and Amendments	Effective date by IASB
Amendments to IFRS 9 and IFRS 7, 'Amendments to the classification and measurement of financial instruments'	January 1, 2026
Amendments to IFRS 9 and IFRS 7, 'Contracts referencing nature – dependent electricity'	January 1, 2026
Amendments to IFRS 10 and IAS 28, 'Sale or contribution of assets between an investor and its associate or joint venture'	To be determined by IASB
IFRS 17, 'Insurance contracts'	January 1, 2023
Amendments to IFRS 17, 'Insurance contracts'	January 1, 2023
Amendment to IFRS 17, 'Initial application of IFRS 17 and IFRS 9 – comparative information'	January 1, 2023
IFRS 18, 'Presentation and disclosure in financial statements'	January 1, 2027
IFRS 19, 'Subsidiaries without public accountability: disclosures'	January 1, 2027
Annual Improvements to IFRS Accounting Standards – Volume 11	January 1, 2026

Except for the following, the above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment:

IFRS 18, 'Presentation and disclosure in financial statements'

IFRS 18, 'Presentation and disclosure in financial statements' replaces IAS 1. The standard introduces a defined structure of the statement of profit or loss, disclosure requirements related to management-defined performance measures and enhanced principles on aggregation and disaggregation which apply to the primary financial statements and notes.

4. SUMMARY OF MATERIAL ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

(1) Compliance statement

The consolidated financial statements of the Group have been prepared in accordance with the "Regulations Governing the Preparation of Financial Reports by Securities Issuers", International Financial Reporting Standards, International Accounting Standards, IFRIC® Interpretations, and SIC® Interpretations that came into effect as endorsed by the FSC (collectively referred herein as the "IFRSs").

(2) Basis of preparation

A. Except for the following items, the consolidated financial statements have been prepared under the historical cost convention:

(a) Financial assets and financial liabilities (including derivative instruments) at fair value through profit or loss.

(b) Defined benefit liabilities recognized based on the net amount of pension fund assets less the present value of defined benefit obligations.

B. The preparation of financial statements in conformity with IFRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 5.

(3) Basis of consolidation

A. Basis for preparation of consolidated financial statements:

- (a) All subsidiaries are included in the Group's consolidated financial statements. Subsidiaries are all entities (including structured entities) controlled by the Group. The Group controls an entity when the Group is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Consolidation of subsidiaries begins from the date the Group obtains control of the subsidiaries and ceases when the Group loses control of the subsidiaries.
- (b) Inter-company transactions, balances and unrealized gains or losses on transactions between companies within the Group are eliminated. Accounting policies of subsidiaries have been adjusted where necessary to ensure consistency with the policies adopted by the Group.
- (c) Profit or loss and each component of other comprehensive income are attributed to the owners of the parent and to the non-controlling interests. Total comprehensive income is attributed to the owners of the parent and to the non-controlling interests even if this results in the noncontrolling interests having a deficit balance.
- (d) Changes in a parent's ownership interest in a subsidiary that do not result in the parent losing control of the subsidiary (transactions with non-controlling interests) are accounted for as equity transactions, i.e. transactions with owners in their capacity as owners. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognized directly in equity.
- (e) When the Group loses control of a subsidiary, the Group remeasures any investment retained in the former subsidiary at its fair value. That fair value is regarded as the fair value on initial recognition of a financial asset or the cost on initial recognition of the associate or joint venture. Any difference between fair value and carrying amount is recognized in profit or loss. All amounts previously recognized in other comprehensive income in relation to the subsidiary are reclassified to profit or loss, on the same basis as would be required if the related assets or liabilities were disposed of. That is, when the Group loses control of a subsidiary, all gains or losses previously recognized in other comprehensive income in relation to the subsidiary should be reclassified from equity to profit or loss, if such gains or losses would be reclassified to profit or loss when the related assets or liabilities are disposed of.

B. Subsidiaries included in the consolidated financial statements:

(Note 2) Established in April 2024.

C. Subsidiaries not included in the consolidated financial statements: None.

- D. Adjustments for subsidiaries with different balance sheet dates: None.
- E. Significant restrictions: None.
- F. Subsidiaries with non-controlling interests that are material to the Group: None.

(4) Foreign currency translation

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in New Taiwan Dollars, which is the Company's functional and presentation currency.

A. Foreign currency transactions and balances

- (a) Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are re-measured. Foreign exchange gains and losses resulting from the settlement of such transactions are recognized in profit or loss in the period in which they arise.
- (b) Monetary assets and liabilities denominated in foreign currencies at the period end are retranslated at the exchange rates prevailing at the balance sheet date. Exchange differences arising upon re-translation at the balance sheet date are recognized in profit or loss.
- (c) Non-monetary assets and liabilities denominated in foreign currencies held at fair value through profit or loss are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognized in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognized in other comprehensive income. However, non-monetary assets and liabilities denominated in foreign currencies that are not measured at fair value are translated using the historical exchange rates at the dates of the initial transactions.
- (d) All foreign exchange gains and losses are presented in the statement of comprehensive income within "Other gains and losses".

B. Translation of foreign operations

- (a) The operating results and financial position of all the group entities that have a functional currency different from the presentation currency are translated into the presentation currency as follows:
 - i. Assets and liabilities for each balance sheet presented are translated at the closing exchange rate at the date of that balance sheet;
 - ii. Income and expenses for each statement of comprehensive income are translated at average exchange rates of that period; and
 - iii. All resulting exchange differences are recognized in other comprehensive income.
- (b) Foreign exchange gains and losses resulting from net investments in foreign operations, long-term loans for investments and other monetary instruments designated as investment hedges are recognized in other comprehensive income.
- (c) When the foreign operation partially disposed of or sold is a subsidiary, cumulative exchange differences that were recorded in other comprehensive income are proportionately transferred to the non-controlling interest in this foreign operation. In addition, if the Group retains partial interest in the former foreign subsidiary after losing control of the former foreign subsidiary,

such transactions should be accounted for as disposal of all interest in the foreign operation.

(5) Classification criteria for distinguishing assets and liabilities into current and non-current

A. Assets that meet one of the following criteria are classified as current assets:

- (a) Assets arising from operating activities that are expected to be realized, or are intended to be sold or consumed within the normal operating cycle;
- (b) Assets held mainly for trading purposes;
- (c) Assets that are expected to be realized within twelve months from the balance sheet date;
- (d) Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to settle liabilities more than twelve months after the balance sheet date.

The Group classifies all assets that do not meet the above criteria as non-current.

B. Liabilities that meet one of the following criteria are classified as current liabilities:

- (a) Liabilities that are expected to be settled within the normal operating cycle;
- (b) Liabilities arising mainly from trading activities;
- (c) Liabilities that are to be settled within twelve months from the balance sheet date;
- (d) It does not have the right at the end of the reporting period to defer settlement of the liability at least twelve months after the reporting period.

The Group classifies all liabilities that do not meet the above criteria as non-current.

(6) Cash equivalents

- A. Cash equivalents refer to short-term highly liquid investments that are readily convertible to known amount of cash and which are subject to an insignificant risk of changes in value.
- B. Time deposits and notes issued under repurchase agreement that meet the definition above and are held for the purpose of meeting short-term cash commitment in operations are classified as cash equivalents.

(7) Financial assets measured at amortized cost

- A. Financial assets at amortized cost are those that meet all of the following criteria:
 - (a) The objective of the Group's business model is achieved by collecting contractual cash flows.
 - (b) The assets' contractual cash flows represent solely payments of principal and interest.
- B. The Group holds time deposits which do not fall under cash equivalents are those with a short maturity period and are measured at initial investment amount as the effect of discounting is immaterial. In addition, the Group's cash and cash equivalents pledged to others are consistent with the definition of financial assets at amortized cost, and expressed in "Guarantee deposits paid".

(8) Accounts and notes receivable

- A. Accounts and notes receivable entitled the Group a legal right to receive consideration in exchange for transferred goods.
- B. The short-term accounts and notes receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(9) Inventories

Cost is determined using the weighted-average method. The cost of finished goods and work in progress comprises raw materials, direct labor, other direct costs, and production-related overheads (allocated based on normal operating capacity). It excludes borrowing costs. Inventories are stated at the lower of cost and net realizable value. The item-by-item approach is used in applying the lower of cost and net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and the estimated costs necessary to make the sale. When the cost of inventories exceeds the net realizable value, the amount of any write-down of inventories is recognized as cost of sales during the period; and the amount of any reversal of inventory write-down is recognized as a reduction in cost of sales during the period.

(10) Investments accounted for using equity method – associates

- A. Associates are all entities over which the Group has significant influence but not control. In general, it is presumed that the investor has significant influence, if an investor holds, directly or indirectly 20 percent or more of the voting power of the investee. Investments in associates are accounted for using the equity method and are initially recognized at cost.
- B. The Group's share of its associates' post-acquisition profits or losses is recognized in profit or loss, and its share of post-acquisition movements in other comprehensive income is recognized in other comprehensive income. When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Group does not recognize further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the associate.
- C. When changes in an associate's equity do not arise from profit or loss or other comprehensive income of the associate and such changes do not affect the Group's ownership percentage of the associate, the Group recognizes all changes in 'capital surplus' in proportion to its ownership.
- D. Unrealized gains on transactions between the Group and its associates are eliminated to the extent of the Group's interest in the associates. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been adjusted where necessary to ensure consistency with the policies adopted by the Group.
- E. When the Group disposes its investment in an associate and loses significant influence over this associate, the amounts previously recognized in other comprehensive income in relation to the associate, are reclassified to profit or loss, on the same basis as would be required if the relevant assets or liabilities were disposed of. If it retains significant influence over this associate, the amounts previously recognized in other comprehensive income in relation to the associate are reclassified to profit or loss proportionately in accordance with the aforementioned approach.

(11) Impairment of financial assets

For financial assets at amortized cost, at each balance sheet date, the Group recognizes the impairment provision for 12 months expected credit losses if there has not been a significant increase in credit risk since initial recognition or recognizes the impairment provision for the lifetime expected credit losses (ECLs) if such credit risk has increased since initial recognition after taking into consideration all reasonable and verifiable information that includes forecasts. On the other hand, for accounts receivable or contract assets that do not contain a significant financing component, the Group recognizes the impairment provision for lifetime ECLs.

(12) Derecognition of financial assets

The Group derecognizes a financial asset when the contractual rights to receive the cash flows from the financial asset expire.

(13) Property, plant and equipment

- A. Property, plant and equipment are initially recorded at cost. Borrowing costs incurred during the construction period are capitalized.
- B. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.
- C. Land is not depreciated. Other property, plant and equipment apply cost model and are depreciated using the straight-line method to allocate their cost over their estimated useful lives. Each part of an item of property, plant, and equipment with a cost that is significant in relation to the total cost of the item must be depreciated separately.
- D. The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each financial year-end. If expectations for the assets' residual values and useful lives differ from previous estimates or the patterns of consumption of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors', from the date of the change. The estimated useful lives of property, plant and equipment are as follows:

Assets	Useful lives
Buildings	3 ~ 46 years
Machinery and equipment	2 ~ 11 years
Utilities equipment	5 ~ 11 years
Transportation equipment	4 ~ 6 years
Office equipment	3 ~ 6 years
Other equipment	2 ~ 10 years

(14) Investment property

An investment property is stated initially at its cost and measured subsequently using the cost model.

(15) Leasing arrangements (lessee) — right-of-use assets/lease liabilities

- A. Leases are recognized as a right-of-use asset and a corresponding lease liability at the date at which the leased asset is available for use by the Group. For short-term leases or leases of low-value assets, lease payments are recognized as an expense on a straight-line basis over the lease term.
- B. Lease liabilities are recognized as the net present value of the remaining lease payments at the commencement date, discounted using the incremental borrowing interest rate. Lease payments are comprised of fixed payments, less any lease incentives receivable. The Group subsequently measures the lease liability at amortized cost using the interest method and recognizes interest expense over the lease term. The lease liability is remeasured and the amount of remeasurement is recognized as an adjustment to the right-of-use asset when there are changes in the lease term or lease payments and such changes do not arise from contract modifications.

C. At the commencement date, the right-of-use asset is stated at cost comprising the following:

- (a) The amount of the initial measurement of lease liability;
- (b) Any lease payments made at or before the commencement date; and
- (c) Any initial direct costs incurred.

The right-of-use asset is measured subsequently using the cost model and is depreciated from the commencement date to the earlier of the end of the asset's useful life or the end of the lease term. When the lease liability is remeasured, the amount of remeasurement is recognized as an adjustment to the right-of-use asset.

D. For lease modifications that decrease the scope of the lease, the lessee shall decrease the carrying amount of the right-of-use asset and remeasure the lease liability to reflect the partial or full termination of the lease, and recognize the difference in profit or loss.

(16) Intangible assets

A. Trademarks and patents

Separately acquired corporate identification system trademark rights and product patent rights are stated at historical cost. Trademarks and patents have a finite useful life and are amortized on a straight-line basis over their estimated useful lives of 5 to 23 years.

B. Computer software

Computer software is stated at cost and amortized on a straight-line basis over its estimated useful life of 3 to 5 years.

(17) Impairment of non-financial assets

The Group assesses at each balance sheet date the recoverable amounts of those assets where there is an indication that they are impaired. When the recoverable amount is lower than its carrying amount, impairment losses are recognized. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. When the circumstances or reasons for recognizing impairment loss for an asset in prior years no longer exist or diminish, the impairment loss is reversed. The increased carrying amount due to reversal should not be more than what the depreciated or amortized historical cost would have been if the impairment had not been recognized.

(18) Borrowings

Borrowings comprise long-term and short-term bank borrowings. Borrowings are recognized initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortized cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognized in profit or loss over the period of the borrowings using the effective interest method.

(19) Accounts and notes payable

- A. Accounts payable are liabilities for purchases of raw materials, goods or services and notes payable are those resulting from operating and non-operating activities.
- B. The short-term notes and accounts payable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(20) Derecognition of financial liabilities

A financial liability is derecognized when the obligation specified in the contract is either discharged or cancelled or expires.

(21) Provisions

Provisions for product warranties are recognized when the Group has a present legal or constructive obligation as a result of past events, and it is probable that an outflow of economic resources will be required to settle the obligation and the amount of the obligation can be reliably estimated. Provisions are measured at the present value of the expenditures expected to be required to settle the obligation on the balance sheet date, which is discounted using a pre-tax discount rate that reflects the current market assessments of the time value of money and the risks specific to the obligation. Provisions are not recognized for future operating losses.

(22) Employee welfare

A. Short-term employee benefits

Short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in respect of service rendered by employees in a period and should be recognized as expense in that period when the employees render service.

B. Pensions

(a) Defined contribution plans

For defined contribution plans, the contributions are recognized as pension expenses when they are due on an accrual basis. Prepaid contributions are recognized as an asset to the extent of a cash refund or a reduction in future payments.

(b) Defined benefit plans

i. Net obligation under a defined benefit plan is defined as the present value of an amount of pension benefits that employees will receive on retirement for their services with the Group in current period or prior periods. The liability recognized in the balance sheet in respect of defined benefit pension plans is the present value of the defined benefit obligation at the balance sheet date less the fair value of plan assets. The net defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The rate used to discount is determined by using interest rates of government bonds (at the balance sheet date) of a currency and term consistent with the currency and term of the employment benefit obligations.

ii. Remeasurements arising on defined benefit plans are recognized in other comprehensive income in the period in which they arise and are recorded as retained earnings.

C. Employees' compensation and directors' and supervisors' remuneration

Employees' compensation and directors' and supervisor's remuneration are recognized as expense and liability, provided that such recognition is required under legal or constructive obligation and those amounts can be reliably estimated. Any difference between the resolved amounts and the subsequently actual distributed amounts is accounted for as changes in estimates. If employees' compensation is distributed by shares, the Group calculates the number of shares based on the closing market price at the previous day of the board meeting resolution.

(23) Income taxes

- A. The tax expense for the period comprises current and deferred tax. Tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or items recognized directly in equity, in which cases the tax is recognized in other comprehensive income or equity.
- B. The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. An additional tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the stockholders resolve to retain the earnings.
- C. Deferred income tax is recognized, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, the deferred income tax is not accounted for if it arises from initial recognition of goodwill or of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences. Deferred income tax is provided on temporary differences arising on investments in subsidiaries and associates, except where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.
- D. Deferred income tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized. At each balance sheet date, unrecognized and recognized deferred income tax assets are reassessed.
- E. Current income tax assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. Deferred tax assets and liabilities are offset on the balance sheet when the entity has the legally enforceable right to offset current tax assets against current tax liabilities and they are levied by the same taxation authority on either the same entity or different entities that intend to settle on a net basis or realize the asset and settle the liability simultaneously.
- F. A deferred tax asset shall be recognized for the carryforward of unused tax credits resulting from acquisitions of research and development expenditures to the extent that it is possible that future taxable profit will be available against which the unused tax credits can be utilized.

(24) Share capital

Ordinary shares are classified as equity incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.

(25) Dividend distribution

Dividends are recorded as liabilities in the Company's financial statements in the period in which they are approved by the Company's board of directors. Stock dividends are recorded as stock dividends to be distributed by shareholder's meeting and are reclassified to ordinary shares on the effective date of new shares issuance.

(26) Revenue recognition

A. Sales of goods

- (a) The Group manufactures and sells Automobile Sun Shade and other related products. Sales are recognized when control of the products has transferred, being when the products are delivered to the wholesaler, the wholesaler has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the wholesaler's acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the wholesaler, and either the wholesaler has accepted the products in accordance with the sales contract, or the Group has objective evidence that all criteria for acceptance have been satisfied.
- (b) Revenue from these sales is recognized based on the price specified in the contract, net of the estimated sales discounts. The Group estimates sales discounts based on historical experience. Revenue is only recognized to the extent that it is highly probable that a significant reversal will not occur. The estimation is subject to an assessment at each reporting date. A refund liability is recognized for expected sales discounts payable to customers in relation to sales made until the end of the reporting period.
- (c) The Group provides a standard warranty for the products sold with an obligation to repair product defects; provision for liabilities is recognized when goods are sold.
- (d) A receivable is recognized when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

B. Incremental costs of obtaining a contract

Given that the contractual period lasts less than one year, the Group recognizes the incremental costs of obtaining a contract as an expense when incurred although the Group expects to recover those costs.

(27) Operating segments

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The Group's chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments.

5. CRITICAL ACCOUNTING JUDGEMENTS, ESTIMATES AND KEY SOURCES OF ASSUMPTION UNCERTAINTY

The preparation of these consolidated financial statements requires management to make critical judgements in applying the Group's accounting policies and make critical assumptions and estimates concerning future events. Assumptions and estimates may differ from the actual results and are continually evaluated and adjusted based on historical experience and other factors. Such assumptions and estimates have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, and the uncertainties in material accounting judgments, estimates and assumptions is addressed below:

(1) Important judgments for adoption of accounting policies

None.

(2) Important accounting estimates and assumptions

Inventory evaluation

A. As inventories are stated at the lower of cost and net realizable value, the Group must determine the net realizable value of inventories on balance sheet date using judgements and estimates. Because of the change in market demand and the sales strategy, the Group evaluates the amounts of price fluctuations of inventories, obsolete inventories or inventories without market selling value on the balance sheet date, and writes down the cost of inventories to the net realizable value. Such an evaluation is principally based on the demand for the products within the specified period in the future. Therefore, there might be material changes to the evaluation.

B. As of December 31, 2024, the carrying amount of inventories was \$1,171,079.

(15) Pensions

A. The Group has a defined benefit pension plan in accordance with the Labor Standards Law, covering all regular employees' service years prior to the enforcement of the Labor Pension Act on July 1, 2005 and service years thereafter of employees who chose to continue to be subject to the pension mechanism under the Law. Under the defined benefit pension plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last 6 months prior to retirement. The Group contributes monthly an amount equal to 15% of the employees' monthly salaries and wages to the retirement fund deposited with Bank of Taiwan, the trustee, under the name of the independent retirement fund committee. Also, the Group would assess the balance in the aforementioned labor pension reserve account by December 31 every year. If the account balance is not enough to pay the pension calculated by the aforementioned method to the employees expected to qualify for retirement in the following year, the Group will make contribution for the deficit by end of March next year. (c) The Bank of Taiwan was commissioned to manage the Fund of the Company's defined benefit pension plan in accordance with the Fund's annual investment and utilization plan and the "Regulations for Revenues, Expenditures, Safeguard and Utilization of the Labor Retirement Fund" (Article 6: The scope of utilization for the Fund includes deposit in domestic or foreign financial institutions, investment in domestic or foreign listed, over-the-

counter, or private placement equity securities, investment in domestic or foreign real estate securitization products, etc.). With regard to the utilization of the Fund, its minimum earnings in the annual distributions on the final financial statements shall be no less than the earnings attainable from the amounts accrued from two-year time deposits with the interest rates offered by local banks. If the earnings is less than aforementioned rates, government shall make payment for the deficit after being authorized by the Regulator. The Company has no right to participate in managing and operating that fund and hence the Group is unable to disclose the classification of plan assets fair value in accordance with IAS 19 paragraph 142. The composition of fair value of plan assets as of December 31, 2024 and 2023 is given in the Annual Labor Retirement Fund Utilization Report announced by the government.

(d) The principal actuarial assumptions used were as follows:

	For the years ended December 31,	
	2024	2023
Discount rate	1.55%	1.20%
Future salary increases	2.00%	2.00%

The assumptions for future mortality for the years ended December 31, 2024 and 2023 are estimated according to the 6th mortality life tables of Taiwan's life insurance industry.

Because the main actuarial assumption changed, the present value of defined benefit obligation is affected. The analysis was as follows:

	Discount rate		Future salary increases	
	Increase 0.25%	Decrease 0.25%	Increase 0.25%	Decrease 0.25%
<u>December 31, 2024</u>				
Effect on present value of defined benefit obligation	(\$ 2,214)	\$ 2,276	\$ 2,260	(\$ 2,210)
<u>December 31, 2023</u>				
Effect on present value of defined benefit obligation	(\$ 2,417)	\$ 2,492	\$ 2,466	(\$ 2,404)

The sensitivity analysis above is based on one assumption which changed while the other conditions remain unchanged. In practice, more than one assumption may change all at once. The method of analysing sensitivity and the method of calculating net pension liability in the balance sheet are the same. The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the previous period.

(e) Expected contributions to the defined benefit pension plans of the Company for 2025 amounted to \$9,497.

(f) As of December 31, 2024, the weighted average duration of the retirement plan was 5 years. The analysis of timing of the future pension payment was as follows:

Within 1 year	\$ 28,384
2-5 years	89,492
Over 5 years	64,342
	<hr/>
	\$ 182,218

B. Effective July 1, 2005, the Company has established a defined contribution pension plan (the “New Plan”) under the Labour Pension Act, covering all regular employees with R.O.C. nationality. Under the New Plan, the Company contributes monthly an amount based on 6% of the employees’ monthly salaries and wages to the employees’ individual pension accounts at the Bureau of Labour Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment. The Group’s overseas subsidiaries voluntarily withdraw pension reserves and pension insurance systems in accordance with the regulations of the local government of the employee, and allocates pension reserves and pension insurance funds according to 2%–18.6% of the total salary of local employees every month. The pension of each employee is managed and arranged by the government. In addition to the monthly appropriation and payment of the subsidiary, there are no further obligations.

The pension costs recognized by the Group in accordance with the above pension methods for the years ended December 31, 2024 and 2023 were \$38,374 and \$32,947 respectively.

(16) Share capital

A. Movements in the number of the Company’s ordinary shares outstanding are as follows (in thousands of shares):

	For the years ended December 31,	
	2024	2023
Balance as at January 1 and December 31	74,900	74,900

B. As of December 31, 2024, the Company’s authorized capital was \$1,000,000 and paid-in capital amount was \$749,000, consisting of 74,900 thousand shares of ordinary stock, with a par value of \$10 (in dollars) per share. All proceeds from shares issued have been collected.

(17) Capital surplus

Pursuant to the R.O.C. Company Law, capital reserves arising from paid-in capital in excess of par value on issuance of common stocks and donations can be used to cover accumulated deficit or to issue new stocks or cash to shareholders in proportion to their share ownership, provided that the Company has no accumulated deficit. Further, the R.O.C. Securities and Exchange Law requires that the amount of capital surplus to be capitalized mentioned above should not exceed 10% of the paid-in capital each year. Capital reserves should not be used to cover accumulated deficit unless the legal reserve is insufficient.

(18) Retained earnings

- A. The legal reserve shall be exclusively used to cover accumulated deficit, to issue new stocks or distribute cash to shareholders in proportion to their share ownership. The use of legal reserve for the issuance of stocks or cash dividends to shareholders in proportion to their share ownership is permitted provided that the balance of such reserve exceeds 25% of the Company's paid-in capital.
- B. In accordance with provisions of the Company's Articles of Incorporation, the Company's dividends are based on the principle of dividend stability in line with the current year's earnings. The Company is in a period of business growth and there is a need for funds to promote global operations in the next few years. Therefore, in addition to the distribution of surplus in accordance with the provisions of Article 28 of the Company's Articles of Incorporation, the amount of distribution shall in principle not be less than 30% of the distributable surplus of the current year. If necessary, dividends may be paid in conjunction with capital reserve. Cash dividends shall not be less than 30% of the total dividends. If there is a surplus in the Company's annual final accounts, income tax should first be paid to make up for losses of previous years. If there is a surplus, 10% shall be set aside as legal reserve in accordance with the law, and a special reserve shall be allocated or transferred in accordance with the provisions of Article 41 of Securities and Exchange Act of the Republic of China to constitute the distributable surplus for the current year. Furthermore, the accumulated undistributed surplus of the prior year is to be added to the cumulative distributable surplus, and the aforementioned distributable surplus shall be proposed by the Board of Directors to be distributed by resolution. If the Company distributes in cash its dividends and bonuses or all or part of its legal reserve and capital reserve, this shall be authorized by resolution of Board of Directors with at least two-thirds of the directors present and more than half of the attending directors in agreement, and this shall be reported to the shareholders' meeting. The provisions of the preceding paragraph that must be resolved by the shareholders' meeting are not applicable.
- C. In accordance with the regulations, the Company shall set aside special reserve from the debit balance on other equity items at the balance sheet date before distributing earnings. When debit balance on other equity items is reversed subsequently, the reversed amount could be included in the distributable earnings
- D. When IFRSs were first adopted, the special reserve of \$26,594 was set out in Letter Jinguanzhengfazi No. 1090150022 dated March 31, 2021, and this was reversed by the Company when subsequently disposing of the relevant assets.
- E. The cash dividends recognized by the Company for distribution to owners in 2024 and 2023 amounted to \$254,660 (NT\$3.4 (in dollars) per share) and \$247,170 (NT\$3.3 (in dollars) per

share), respectively. On March 7, 2025, the Board of Directors proposed for the distribution of cash dividends from 2024 earnings in the amount of \$172,270 (NT\$2.3 (in dollars) per share).

(19) Operating revenue

A. The Group's revenue arose from customer contracts for product sales, which are recognized after a certain point in time, and the revenue can be subdivided into the following major product categories:

A. In accordance with the Company's Articles of Incorporation, if the Company makes a profit for the current year, 3% to 8% should be allocated for employee remuneration and no more than 3.5% should be allocated for director and supervisor remuneration. However, when the Company still has accumulated losses, it should reserve the compensation amount in advance. Employee remuneration is made in stock or cash; in addition, the recipients of stock or cash distributions may include employees of affiliated companies who meet certain conditions.

B. For the years ended December 31, 2024 and 2023, employees' compensation were accrued at \$16,705 and \$23,869, respectively; while directors' remuneration were accrued at \$6,682 and \$9,308, respectively. The aforementioned amounts were recognised in salary expenses and estimated and accrued based on the distributable net profit of current year calculated by the percentage prescribed under the Company's Articles of Incorporation. Employees' compensation for 2023 amounting to \$23,269 and directors' remuneration for 2023 amounting to \$9,308, as resolved by the Board of Directors were in agreement with the amounts recognised in the 2023 financial statements. On March 7, 2025, the board of directors resolved to distribute employees' compensation and directors' remuneration in the amount of \$16,705 and \$6,682, respectively. The employees' compensation will be distributed in the form of cash.

Information about employees' compensation and directors' remuneration of the Company as resolved by the Board of Directors will be posted in the "Market Observation Post System" at the website of the Taiwan Stock Exchange.

10. Significant Disaster Loss

None.

11. Significant Events After The Balance Sheet Date

None.

12. Others

(1) Capital management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders, maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

(2) Financial instruments

A. Financial instruments by category

Details of financial instruments by category of the Group are described in Note 6, 'Financial assets'.

B. Financial risk management policy

- (a) The Group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, interest rate risk and price risk), credit risk and liquidity risk.
- (b) Risk management is carried out by a central treasury department (Group treasury) under policies approved by the Board of Directors. Group treasury identifies, evaluates and hedges financial risks in close cooperation with the Group's operating units. The Board provides written principles for overall risk management, as well as written policies covering specific areas and matters, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments, and investment of excess liquidity.

C. Significant financial risks and degrees of financial risks

(a) Market risk

Foreign exchange risk

- i. The Group operates internationally and is therefore subject to the exchange rate risk arising from transactions that are different from the functional currency of the Company and its subsidiaries; these are mainly USD and CNY. The associated exchange rate risk arises from future commercial transactions and recognized assets and liabilities.
- ii. The Group's management has established a policy that requires each company within the Group to manage exchange rate risk relative to its functional currency. Each company should hedge its overall exchange rate risk through the Group's Finance Department. Currency risk is measured through highly probable USD and CNY revenue forecast transactions, using forward foreign exchange contracts to reduce the impact of exchange rate fluctuations on the expected collection of receivables.
- iii. The Group has certain investments in foreign operations, whose net assets are exposed to foreign currency translation risk.
- iv. The Group's businesses involve some non-functional currency operations (the Company's and certain subsidiaries' functional currency: NTD; other certain subsidiaries' functional currency: USD, EUR, CNY, KRW and MXN. The information on assets and

liabilities denominated in foreign currencies whose values would be materially affected by the exchange rate fluctuations is as follows:

- v. Total exchange gain, including realized and unrealized arising from significant foreign exchange variation on the monetary items held by the Group for the years ended December 31, 2024 and 2023 amounted to \$21,317 and \$39,215, respectively.
- vi. For the years ended December 31, 2024 and 2023, if the NTD appreciated or depreciated by 1% against each currency while all other factors remained unchanged, the net profit after tax for the Group would decrease or increase by \$10,305 and \$8,583, respectively.

Cash flow and fair value interest rate risks

- i. Funds borrowed by the Group are in the form of financial instruments with floating interest rates. Therefore, changes in market interest rates will cause the effective interest rates of debt financial products to change accordingly, resulting in volatility of future cash flows. However, this risk is partially offset by holding cash and cash equivalents at floating rates.
- ii. In conducting a sensitivity analysis on interest rate risk, if borrowing rates increased or decreased by 1% and with all other factors held constant, the Group's net profit after tax for the years ended December 31, 2024 and 2023 would decrease or increase by \$2,550 and \$2,433, respectively, mainly due to the increase or decrease in interest expenses due to floating rate borrowings.

(b) Credit risk

- i. Credit risk refers to the risk of financial loss to the Group arising from default by the clients or counterparties of financial instruments on the contract obligations. The main factor is that counterparties could not repay in full the accounts receivable based on the agreed terms.
- ii. The Group establishes credit risk management from a group perspective. According to the Group's credit policy, each local entity in the Group is responsible for managing and analyzing the credit risk for each of their new clients before standard payment and delivery terms and conditions are offered. Internal risk control assesses the credit quality of the customers, taking into account their financial position, past experience and other factors. The utilization of credit limits is regularly monitored.
- iii. The Group adopts IFRS 9 to provide prerequisite assumptions. When a contract payment is overdue for more than 30 days according to the agreed payment terms, the credit risk of deemed financial assets has increased significantly since the original recognition.
- iv. The Group adopts IFRS 9 to provide prerequisite assumptions, and impairment assessment begins when the contract payment is overdue for more than a certain number of days according to the agreed payment terms.
- v. The Group classifies customer's accounts receivable in accordance with credit rating of customer. The Group applies the simplified approach using the provision matrix based on the loss rate methodology to estimate expected credit loss. The Group uses the forecast ability of conditions to adjust historical and timely information to assess the default possibility of accounts receivable. Movements in relation to the Group applying the simplified approach to provide loss allowance for accounts receivable is as follows:

	For the years ended December 31,	
	2024	2023
January 1	\$ 3,855	\$ 4,146
Expected credit loss (gain)	17,941	(279)
Write-off of uncollectible receivables	(1,237)	-
Effect of foreign exchange	34	(12)
December 31	<u>\$ 20,593</u>	<u>\$ 3,855</u>

(c) Liquidity risk

- i. Cash flow forecasting is performed in the operating entities of the Group and aggregated by Group treasury. Group treasury monitors rolling forecasts of the Group's liquidity requirements to ensure it has sufficient cash to meet operational needs while

maintaining sufficient headroom on its undrawn committed borrowing facilities at all times so that the Group does not breach borrowing limits or covenants.

- ii. When surplus cash held by each operating entity exceeds the management needs of working capital, the Group's Finance Department will plan to invest the remaining funds in interest-bearing demand deposits and time deposits. The instrument it chooses has an appropriate maturity date or sufficient liquidity to respond to the above forecasts and provide sufficient dispatch levels.
- iii. The details of the Group's unused loan amounts are as follows:

	<u>December 31, 2024</u>	<u>December 31, 2023</u>
Floating rate:		
Expiring within one year	\$ 1,152,283	\$ 1,374,606
Expiring beyond one year	<u>1,302,456</u>	<u>839,675</u>
	<u><u>\$ 2,454,739</u></u>	<u><u>\$ 2,214,281</u></u>

Note: The quota due within one year is an annual quota. It will be discussed separately in 2025. The balance is required for the Group to prepare for operating and capital expenditures.

- iv. The following table is the Group's non-derivative financial liabilities and derivative financial liabilities settled in gross amount, grouped by the relevant due date. Non-derivative financial liabilities are analyzed based on the remaining period from the balance sheet date to the contractual maturity date. Derivative financial liabilities are analyzed based on the remaining period from the balance sheet date to the expected maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows:

December 31, 2024	Within 1 year	Between 1 and 2 years	Between 2 and 5 years	Over 5 years

Refund liabilities	110,862	-	-	-
Guarantee deposits received	-	4,120	-	-

v. The Group does not expect the maturity date to end early nor the actual cash flow to be materially different.

(3) Fair value information

A. The different levels that the inputs to valuation techniques are used to measure fair value of financial and non-financial instruments have been defined as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. A market is regarded as active where a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. All derivative instruments invested by the Group are included in Level 2.

Level 3: Unobservable inputs for the asset or liability.

B. Financial instruments not measured at fair value

Financial assets and financial liabilities not measured at fair value including the carrying amounts of cash and cash equivalents, financial assets at amortized cost (including current and non-current portion), notes receivable, accounts receivable, other receivables, guarantee deposits paid, short-term borrowings, notes payable, accounts payable, other payables, refund liability, long-term borrowings (including current portion) and guarantee deposits received are approximate to their fair values.

C. The related information on financial and non-financial instruments measured at fair value by level on the basis of the nature, characteristics and risks of the assets and liabilities are as follows:

(a) The related information on the nature of the assets and liabilities are as follows:

	December 31, 2024	Level 1	Level 2	Level 3	Total
Liabilities					
<u>Recurring fair value measurements</u>					
Financial liabilities measured at fair value through profit or loss - forward foreign exchange contracts	\$ _____ -	\$ 504	\$ _____ -	\$ 504	

There was no such situation as of December 31, 2023.

(b) The methods and assumptions the Group used to measure fair value are as follows:

The valuation of derivative financial instruments is based on valuation model widely accepted by market participants, such as present value techniques and option pricing models.

Forward exchange contracts are usually valued based on the current forward exchange rate.

(c) For the years ended December 31, 2024 and 2023, there was no transfer between Level 1 and Level 2.

(d) For the years ended December 31, 2024 and 2023, there was no such situation of Level 3.

13. Supplementary disclosures

B. Significant transactions, either directly or indirectly through a third area, with investee companies in the Mainland Area: Please refer to table 5.

(4) Major shareholders information

Major shareholders information: Please refer to table 8.

14. Segment information

(1) General information

The Group's management has identified reportable segments based on reported information used by operational decision makers in making decisions. The corporate composition of the Group, the basis for dividing into segments, and the basis for measuring segment information have not changed significantly during the current period.

(2) Measurement of segment information

The chief operating decision-maker evaluates the performance of the operating segments based on operating profit. This measure excludes the impact of non-recurring income and expenses in the operating segments. The accounting policies of the operating segments are the same as the summary of the significant accounting policies described in Note 4 to the consolidated financial statements.

(3) Segment information

The segment information provided to the chief operating decision-maker for the reportable segments is as follows:
